

# ANU S PILLAI

Android | Kotlin | Flutter

+91 8848712899 • anu\_icloud@icloud.com • Bangalore, India

## Summary

- Experienced Android and Kotlin developer with over 11 years of expertise designing, architecting and developing Android applications, SDKs and library projects. Extensive experience leading teams and delivering high-quality software solutions.
- Successfully developed and published over 25 apps on PlayStore, including apps with over 100K downloads, such as **South Indian Bank mPassbook**, **Scootsy** (a hyperlocal delivery app in Mumbai, acquired by Swiggy), **Revofit** (a fitness/lifestyle app backed by Marico), **Wellthy Care** (a chronic disease management platform, acquired by TruDoc Inc.), and **Catch & Win - Howzzattt** (a 2D game developed using AndEngine for Toonz Animation India).
- Passionate about learning and mastering new technologies and frameworks independently. Enjoys sharing knowledge through meetups, blogging, and open-source contributions. Would love to explore more of KMM and mobile LLMs.

## Experience

### Borqs Software Solutions

Bangalore, India

#### Tech Lead - Apps and Frameworks

2023 - Present

Leading a team working on an array of inhouse as well as ODC projects involving Android, Kotlin, Flutter.

- Worked as an Android / Kotlin Tech Consultant for an AAOS - Kotlin project for **Qualcomm Inc.**
- Lead a team designing and architecting a Kotlin MQTT Cloud Sync module + Flutter companion app for an overseas Android Automotive project.
- Currently working with **Meta Inc.** (Facebook) for developing a Flutter based cross-platform desktop project.
- Actively participate in code reviews and project architecture discussions. Conduct internal meetups to upskill and mentor developers.

### Wellthy Therapeutics

Bangalore, India

#### Lead Software Developer - Android

2021 - 2023

Architected and developed Wellthy app and SDK for Android platform with 100K+ downloads and maintaining >99% weekly crash free users.

- Lead developer responsible for architecting and developing new feature requirements
- Worked on Improving app user experience and timely bug fixes which resulted in PlayStore rating going up from 3.5 to 4.6 in a year
- Collaborated with cross-functional teams to design and develop features that met business requirements.
- Led the team to brainstorm and implement code optimizations and features which led to a significant improvement in code reusability, modularity and maintainability.
- Helped the organization to achieve faster development goals by introducing code templates and generators which helped save development time significantly
- Overlooking the Sprint plans, Task prioritization and ensure timely sprint / task closure.
- Maintaining the team's performance scorecards, BvA analysis, setting and tracking quarterly goals and reporting to the manager
- Overlook code reviews and git management
- Write and review test cases
- Lead the Wellthy SDK development team to develop and document SDK based on Wellthy Platform which could be easily plugged into third party client applications.

### Wellthy Therapeutics

Bangalore, India

#### Senior Software Developer - Android

2017 - 2021

Architected and developed Wellthy app for Android platform.

- Developed and maintained mobile applications using Kotlin language.
- Bug tracking / Fixing and timely release and team management
- Write and review test cases

### Scootsy (Acquired by Swiggy)

Mumbai, India

#### Senior Application Developer

2014 - 2017

Led the team developing Android Apps like Scootsy, Revofit, Scootsy VMS from scratch

- Developed and maintained mobile applications using Java.
- Collaborated with cross-functional teams to design and develop mobile applications that met business requirements.
- Developer responsible for coordinating the project. Followed Agile / Scrum development methodology.

## Experience

**Simrge**

Trivandrum, India  
2013 - 2014

Junior Android Developer

Developed Android Apps like mParking Dubai, Howzzattt 2D Game using AndEngine, SIB mPassbook (Android + Blackberry), iCRM for vTiger etc.

- First Android Hire. Followed Agile development

## Education

**Anna University**

Chennai, india  
2008 - 2012

Bachelor of Information Technology

## Languages

Kotlin Proficient ●●●●●

Java Proficient ●●●●●

Flutter / Dart Advanced ●●●●●

KMM Beginner ●●●●●

Python Intermediate ●●●●●

## Skills

**Architecture:** MVVM · Clean Architecture

**Frameworks / Tools:** RxJava · Coroutines & Flows · Dagger/Hilt · Jenkins · Flutter Isolates · Jetpack Compose

**Database:** Realm · Room · SQLite

**Version Control:** Github · Bitbucket

**Project Management:** JIRA

**Test Cases:** JUnit · Mockito · Espresso
